1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On line 6 of claims 1, "positioned" has been changed to --angled—. (since the cutting edges are connected, they cannot be said to be "positioned apart").

2. The following is an examiner's statement of reasons for allowance:

The closest prior art is to Roraback, but Roraback's arcuate cutting edges are not pivotally connected at their central portions and they produce a concave finish, not a convex finish.

Made of record but not making Applicant's claims obvious are patents to Rinaldi, Kuzuu, Schmidt, Bernard (2), Green, Frank, Wachtel et al. and Kilian et al. (German) showing cutting devices that have shortcomings similar to Roraback.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
